

NEW

Toner for use in Konica Minolta Bizhub 360, 361, 420, 421, 500, 501 (TN-511)

Small and mid size companies demand the complete range of contemporary functionality for their black & white document production. With the new Bizhub 360 up to the Bizhub 501 Konica Minolta has introduced a series of compact multifunctional systems that are especially designed for flexible and efficient printing or copying and seamless integration into existing office workflows.

At 30 to 50ppm (A4 format), respectively 23 to 27ppm (A3 format) document production is made even more comfortable by functions offered through Konica Minolta's unique User Box. Storage and information management, individual access rights and direct access from PC enable users to optimize their daily work. Features like scan-to-email, and fax capabilities complete the functions of these devices. As all of these well populated machines are using same OEM type toner (TN-511) CROSS Imaging Supplies's compatible premium quality toner is a very efficient way to reduce printing cost of these solid devices significantly without compromising on quality.

Advantages & Benefits

- ▶ OEM equivalent performance and image quality.
- ▶ Significant reduction of cost per copy price.
- ▶ European/US universal cartridge.
- ▶ Sourced directly from the manufacturer.
- ▶ Also as bulk toner available for local filling.
- ▶ Technically supported by the toner manufacturer.
- ▶ Competitively priced product.
- ▶ Deliverable from end of August on.
- ▶ Free of charge samples for testing.
- ▶ Selective distribution through competent reseller only.

Technical Features
