With wireless and wired network connectivity built-in, these devices offer flexible connectivity making them ideal for use in workgroups. The built-in automatic duplex feature allows two-sides printing and contributes to reducing printing-cost.

The DCP/MFC-series multifunctional devices combine high-quality laser printing at printing speeds up to 32 ppm at 1200 x 1200 dpi, convenient flatbed copying and colour scanning in one powerful device and are ideal for small business or small workgroups.

Printing-cost of all of these devices can be significantly reduced without compromising on image-quality or performance by using CROSS Imaging-Supplies' Premium Quality compatible bulk-toner (made in Japan) which is deliverable in cartons of 2 x 10 kgs and drums of 80 kgs.
