NEW

Toner for use in

Kyocera-Mita FS-2100DN (type TK-3100)

With the FS-2100DN Kyocera has introduced in late 2012 one more A4 monochrome business laserprinter for monthly duty cycles of 150 000 pages which perfectly integrates into any network environment.

With printing speed of 42 ppm at up to 1200 dpi resolution and enhanced security features this device is the ideal solution for departments and small offices. Due to the long-life drum and developer which lasts for 500 000 A4 prints the running cost and cost per copy of this printer is largely determined by the toner.

Printing-cost can therefore be significantly reduced without compromising on image-quality or performance by using CROSS Imaging-Supplies' Premium Quality compatible toner (made in Japan).

Advantages & Benefits

- OEM equivalent performance and image-quality.
- Significant reduction of cost per copy.
- Sourced directly from the manufacturer.
- Also as bulk toner available for local filling.
- Technically supported by the toner manufacturer.
- Competitively priced premium quality product.
- Deliverable from Warehouse near Stuttgart.
- Free of charge samples for testing.
- Selective distribution through competent reseller only.

Certified Quality Premium Toner Qualité Certifiée

Technical Features
