Toner for use in Kyocera-Mita FS-3920D, 3920DN 3040MFP, 3140MFP (type TK-350) Olivetti PG-L2040

Made for dynamic work groups with high demand for productivity Kyocera-Mita has introduced in 2010 the FS-3920D, 3929DN duplex and network capable laserprinter as well as the FS-3040MFP and FS-3140MFP multifunctional laserprinter.

All four devices have a very short first copy time and deliver up to 40ppm at a high resolution of 1200dpi. Standard duplexing for double-sided printing are features of the laserprinters while the MFPs offers additionally colour-scan and fax functionality.

Printing cost of all these devices as well as of the equivalent Olivetti devices can be reduced significantly without compromising on performance or image-quality by using CROSS Imaging-Supplies' Premium Quality compatible toner (made in Japan).
