The new versatile monochrome Ricoh MP-2554, MP-3054 and MP-3554 as well as the higher speed MP-4054, MP-5054 and MP-6054 multifunctionals are performing everyday office tasks such as advanced printing, scanning, copying and faxing with high efficiency and in multiple formats. With printing speeds between 25ppm and 60ppm and low temperature-fusing all six devices are providing crisp high-quality b/w output at up to 1200 dpi while reducing operating-cost.

Additionally, productivity of the higher speed MP-4054, MP-5054 and MP-6054 multifunctionals can be extended by making use of the various software and paper handling options that are available for these machines.

Printing-cost of these devices can be substantially reduced further without compromising on image-quality or performance by using CROSS Imaging-Supplies Premium Quality Universal Toner (made in Japan) which is also compatible with the equivalent Lanier and Savin machines. The toner is deliverable as finished product in cartridges and as bulk in drums and cartons for local filling and refilling of empty OEM cartridges.
