

# TONER FOR USE IN

Ricoh Pro C550EX, C700EX

The Ricoh Pro C550EX and C700EX were launched in 2009 already and are high-speed A3 colour multifunctionals designed to support various kinds of production environments to grow revenue and strengthen profitability. These devices deliver outstanding copy speed of 60/55 ppm (B&W/Colour), respectively 75/70 ppm (B&W/Colour) at 600 x 600 dpi as well as high reliability and flexibility.

Various media and finishing options as well as a large capacity paper-trays for up to 5'300 sheets and a powerful EFI Fiery print-controller ensure high productivity of these dependable devices that provide an ideal balance of speed and colour quality for a variety of production applications. Despite of the age of these machines there are still quite many installed in the field and also exported to lower developed markets where these machines have a second life.

Printing-cost of these multifunctionals can be substantially reduced without compromising on image-quality or performance by using CROSS Imaging-Supplies' Premium Quality compatible toner and carrier (Made in Japan) which are already pre-mixed in the finished product.
