

TONER FOR USE IN

Kyocera Mita ECOSYS M4125, M4132
(type TK-6115)

The Kyocera Mita M4125idn and M4132id devices are designed for cost efficient A4/A3 output from 25/10ppm up to 32/17ppm and offer all the benefits of a professional document management solution for workgroups and small offices. Advanced functionality, easy to operate and a range of paper-handling options are only a few features of these well and compact designed devices.

Minimum installation as well as operation requirements and an easy to use full-colour touch panel with wizard-style navigation allow quick and easy operation. Due to the lower fusing temperature power consumption of these devices is lower while the long-life components provide unprecedented efficiency and reliability.

Printing-cost and total cost of ownership of these powerful printers however can be significantly reduced without compromising on image-quality or performance by using CROSS Imaging-Supplies' Premium Quality compatible toner (made in Japan).

ADVANTAGES & BENEFITS

- OEM equivalent performance and image-quality
- Significant reduction of cost per copy
- Sourced directly from the manufacturer
- Technically supported by the toner manufacturer
- Competitively priced premium quality product
- Also as bulk toner available for local filling (bulk toner UED-03)
- Deliverable from Warehouse near Stuttgart/Germany
- Free of charge samples for testing
- Selective distribution through competent reseller only
