With the MP-C3004,C3504,C4504,C5504 and C6004 multifunctional copiers Ricoh has introduced a series of colour devices that provide high-quality A4 colour-output at high-impact 1200x1200dpi resolution from 30ppm up to 60ppm. All these machines are based on the previous MP-CXXX3 series machines but come with some modified Key-Components such as the Drum-Unit. With their wide range of paper- and finishing options and warm-up time of 9 seconds and first-copy-time (full colour) of only 7.1 seconds these powerful devices are increasing flexibility and productivity finishing options, of any office workgroup.

These multifunctionals are featuring flexible printing/copying on paper sizes from A6 at the way up on paper weighted from 52 to 300gm2 quickly. A wide range of Scan-To and Finishing-Options offers the ability to distribute documents from these MFPs without even printing and increases productivity dramatically.

Total Cost of Ownership (TCO) and Printing-cost of these devices can be reduced further significantly without compromising on image-quality or performance by using CROSS Imaging-Supplies Premium Quality Remanufactured Drum-Units (without Developer-Unit) which are perfectly matching not only with the OEM toner but also with CROSS Imaging-Supplies Premium Compatible Toner. Don't miss that opportunity to reduce your cost and those of your customer !
